Semi Synthetic 5W-30

Semi-synthetic motor oil recommended for Ford Zetec engines

Product code: M113

Product Description:

Semi Synthetic 5W-30 is manufactured from a balanced blend of top quality mineral and synthetic base stocks, producing high quality engine oil with the properties of semi-synthetic technology. Its naturally higher lubricity offers lower internal friction for reduced engine wear. Its low viscosity offers improved flow rates and hydraulic tappet performance during cold start and engine idling, a problem with many higher viscosity oils. Semi Synthetic 5W-30 offers excellent stay in grade performance for today's modern multi-valve engines.

Benefits:

- Meets and surpasses the earlier specifications of WSS-M2C-912-A1 and 913-A
- Extended drain capability
- Excellent low temperature stability for improved flow rates
- Improved fuel efficiency
- Semi-synthetic formulation

Applications:

Semi Synthetic 5W-30 is suitable for normally aspirated and turbocharged petrol and diesel vehicles. It meets many of the latest Ford requirements, and is particularly recommended for Zetec engines. It is miscible with all synthetic and mineral based engine oils.
